LinkedIn: linkedin.com/in/karan-jadhav04 | **GitHub**: github.com/Kj4-cloud | Portfolio:kj-cloud.vercel.app

Professional Summary

Computer Engineering undergraduate focused on **Full-Stack Engineering**. Experienced in architecting scalable, production-ready applications. Proficient in the **MERN stack**, **JavaScript**, and **Cloud Infrastructure**, with clean system architecture, and UI/UX optimization.

EXPERIENCE

Independent Backend Developer | Personal Projects
2025 – Present

- Built and tested backend functionality for web applications using JavaScript and Node.js.
- Developed REST APIs using Express.js to handle application requests and server-side operations.
- Integrated databases such as PostgreSQL or Supabase for data storage and retrieval.
- Used Git and GitHub for version control and project management.

Selected Projects

CarbonX : Blockchain Based CarbonCredit Marketplace (🔗)

- Developed a **Blockchain** based system for transaction and genration of carbon credits.
- Implemented data collection and analysis workflows to track carbon-related activities and generate actionable environmental insights.
- Recognized for technical innovation and architectural clarity in multiple national hackathons.

API Token Tracker: API & Subscription Management System(🔗)

- Developed a centralized platform to manage API credentials, AI subscriptions, and service renewals.
- Implemented usage tracking, expense monitoring, and dashboard analytics using React, TypeScript, Node.js, and Supabase.
- Designed a secure, responsive interface with subscription reminders and API usage insights.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL, C++, C, Java (DSA)
Frontend: React 18, Tailwind CSS, Framer Motion, HTML5 / CSS3
Backend & Cloud: Node.js, Express.js, REST APIs, Supabase (PostgreSQL), Firebase
Tools & DevOps: Git / GitHub, Postman, Vite, Vercel, Netlify
Core Concepts:Mobile-First Design, Performance Optimization

Achievements

- **Finalist**: CodeRoyal Hackathon 2026 - National Level Hackathon | 200+particapents.
- **Finalist**: Loop Hackathon 2026 - National Level |1000+ particapents.

Education

B.E. Computer Engineering *2024 – 2028*
University of Mumbai
CGPA: 8/ 10
Relevant Coursework: DSA, DBMS, Operating Systems, Computational Theory
